Florida Atlantic University

Bachelor of Science in Data Science and Analytics

Boca Raton, FL

May 2027

TECHNICAL SKILLS

Programming Languages Python, C#, R, JavaScript, SQL, Visual Studio, Git, GitHub, Version Control

Data Analytics PowerPoint (Advanced), Excel (Advanced) XLOOKUP, VLOOKUP, Google Sheets, Pivot Tables, Tableau, SQL, Python, PowerBI

PROJECTS

Family Tree Calculator *(Personal, Spring 2026)*

Designed and created a Python interface that allows users to create family trees and understand complex family connections. The application's goal is to inspire interest in genealogy and help others build an understanding of the family structure.

- Tools Used: Python, Git, MS Office

Traffic Analysis *(Academic, Spring 2026)*

Planned and presented a research project on traffic patterns in Palm Beach County. The goal of the project was to examine the current state of traffic and to propose solutions to improve traffic flow.

- Tools Used: Python, Microsoft Excel, FDOT Database, Data Visualization
